Datasheet FU 8000 (Nitrogen pumpunit)

| | | |
|---|-------------------|-------------------------------|
| Vaporization principle | | 3 stage direct fired burner |
| Dimensions l x h x b | mm | 7.000 x 3.650 x 2.500 |
| Maximum working pressure | bar | 450 / 300 |
| Maximum flow | m ³ /h | 8.000 / 10.000 |
| Maximum outlet temperature nitrogen | °C | 250 @ 2.000 m ³ /h |
| Maximum fuel consumption | ltr/h | 200 |
| Total weight | kg | 13.000 |
| Safety and recording system for pressure | bar | 0 – 450 |
| Safety and recording system for temperature | °C | -40 / 450 |
